SECRET

FLUSH reports that WISCHMANN (who at one time last summer was arrested by SCI/Munich, Capt.MICHAELIS, and was released, it seems to me, because of the British acknowledgement that he was their agent) - spends his time between his business address in Hamburg and his home in our Zone at Berchtesgaden. - He has some papers which allow him freedom of movement throughout Germany. He appeares to be well informed "on what is going on in both the British and the American Zones of Germany". He seems to be "still interested in intelligence work".

WISCHMANN is well acquainted with Czechoslovakia and "with people previously active in the intelligence work there". He has told FLUSH that "he knows some people who have been sent from Czechoslovakia as agents to work in the American Zone".

FLUSH was asked to have a talk with WISCHMANN and sound him out on cooperation with the American authorities.
